**Attendance is free but attendees must
pre-register for the event using the
link above.**

BRS Grand Round webinars are educational events aimed at all levels of rhinologists, from trainees to consultants, providing surgeons a forum to present real cases they are dealing with and seek the opinion of an expert panel, as well as the membership as a whole. This Grand Round will discuss the cases of advanced Endoscopic Sinus Surgery, Literature Review and Practical Instructional presentations, followed by an interactive Q&A session where attendees can get involved.
